Injury/Mishap Information

- The Center has been **56** days **without** a Civil Servant **Lost Time Injury**.
- On March 13, 2002, an Army employee assigned to AAAC sustained a left finger fracture while drilling a hole in a metal plate. The drill bit became caught in the metal plate, causing the drill to spin, and with the employee's finger captured in the trigger guard, the torque broke the finger. The injury resulted in approximately 14 lost workdays.
- No first aid cases involving civil servants were reported.
